### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE \_\_\_\_ MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

## DETAILED ACTION

*Note: This is in response to Amendment filed 01/10/2007.*

### **Claim Rejections - 35 USC § 102**

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

1. Claims 8-21 and 23 are rejected under 35 U.S.C. 102(e) as being anticipated by Logan et al. (U.S. 6,699,256).

Logan et al. discloses the claimed invention in figures 19-29, a method of cutting a plug (40) of tissue from the wall of a blood vessel including the steps of: piercing the wall of the blood vessel with a piercing element (322) to form an opening in the vessel which blood previously had been substantially prevented from escaping. **Note** that the piercing element (322) as shown in Logan et al is clearly capable of being moved away from the longitudinal centerline of the trocar (324) after retracting into trocar (324) (when piercing element (322) detached from trocar); cutting plug (40) of tissue surrounding the opening in the vessel and clearly capable of cutting any additional plugs of tissue if needed; inserting a trocar (324) around the piercing element (322) and into the punched hole in the vessel; retracting the piercing element (322) into the trocar (324); and removing the piercing element (322) at least partly or fully from the trocar (324).

***Response to Arguments***

2. Applicant's arguments, see remarks, filed 08/07/2006, with respect to the rejection(s) of claim(s) 1, 11, and 16 under 102 (b) have been fully considered and are not persuasive. In response to applicant's argument that nowhere does Logan describe motion of the piercing element (322) away from the longitudinal centerline of trocar (324). The Examiner asserts that the piercing element (322) as shown in Logan et al is clearly capable of being moved away from the longitudinal centerline of the trocar (324) after retracting (when piercing element (322) detached from trocar (324), a recitation of the intended use of the claimed invention must result in a structural difference between the claimed invention and the prior art in order to patentably distinguish the claimed invention from the prior art. If the prior art structure is capable of performing the intended use, then it meets the claim.

***Conclusion***

2. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 3734

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kevin T. Truong whose telephone number is 571-272-4705. The examiner can normally be reached on Monday-Thursday from 8:00 AM to 6:00 PM..
